

HANAA SADOQI

Full-Stack Web Developer

New York, New York | [linkedin.com/in/hanaasadoqi](https://www.linkedin.com/in/hanaasadoqi) | github.com/hsadoqi | hsadoqi@gmail.com | 404-951-7176

Full-stack web developer passionate about developing high-quality web applications that are functional, aesthetically appealing, and user-friendly. Committed to continuous learning and staying updated with the latest technologies.

SKILLS

JavaScript	React	TypeScript	Redux	Ruby on Rails	Next.js	Node.js	Express.js
SQL	MySQL	PostgreSQL	GraphQL	HTML/CSS	Tailwind CSS		

WORK EXPERIENCE

STITCH FIX

Software Engineer II | Jan 2022 - Jan 2023

- Enhanced and maintained an internal web application for the Merchandising team using full-stack Ruby on Rails, JavaScript, and React to continuously improve efficiency and user-friendliness;
- Collaborated cross-departmentally with Merch, IT, and Product teams to identify and resolve complex data issues, enhancing system reliability and accuracy;
- Developed and implemented features based on user feedback, resulting in a significant reduction of the Merch team's workload by over 300 hours monthly through code improvement;
- Contributed to a team effort by engineers across Erch sub-teams to redesign and rebuild the internal web application, focusing on creating scalable and maintainable solutions using React and TypeScript to enhance user experience;
- Authored and maintained comprehensive technical documentation to help team members stay informed and contribute to ongoing team development;

PANDORA MUSIC

Apprentice Software Engineer | Apr 2021 - Nov 2021

- Led the development of the web application's social sharing features from ideation to production, collaborating effectively across product, design, and platform teams.
- Received intensive training and hands-on experience while contributing to key projects using React, TypeScript, and GraphQL alongside the Web team to enhance application features and refine product designs;
- Actively engaged in JIRA tickets, handling tasks such as unit/integration testing, refactoring, and code reviews to ensure high-quality code and functionality;
- Consistently participated in Agile Scrum processes, contributing insights and updates during stand-ups and sprint meetings, and regularly showcased project progress in reviews;

FLATIRON SCHOOL

Online Cohort Lead | Aug 2020 - Jan 2022

- Delivered regular interactive live lectures on full-stack web development, covering JavaScript, React, Redux, Ruby on Rails, SQL, and ActiveRecord, amongst other web technologies;
- Conducted weekly one-on-one mentoring sessions, offering personalized guidance and feedback to students to reinforce technical concepts, coding best practices, and problem-solving strategies;
- Successfully guided over 40 students in the development of five distinct personal projects each, from ideation to deployment, advising on design, code architecture, debugging, and optimization;

WEWORK

Software Engineering Coach | Apr 2019 - Apr 2020

- Provided one-on-one coaching and feedback, focusing on technical concepts, coding best practices, and troubleshooting techniques to enhance students' problem-solving skills;
- Delivered one-on-one coaching and classroom lectures on OO Relationships, React, Redux, Ruby on Rails, and other web technologies;
- Conducted thorough code reviews and feedback sessions, helping students refine their coding style and improve their understanding of key concepts.
- Contributed to the design and implementation of capstone projects, providing technical guidance and encouraging innovative solutions;

EDUCATION

PENNSYLVANIA STATE UNIVERSITY

Associate's Degree in Mechanical Engineering | May 2011 - Jan 2014

FLATIRON SCHOOL CODING BOOTCAMP

Software Engineering | Sep 2018 - Jan 2019
